

SILOSTOP GRAVELBAGS

SILOSTOP Gravelbags offer a convenient and effective solution for sealing silage bunkers and piles. Their filled weight and shape ensures that covers are held securely in place.

Using SILOSTOP Gravelbags eliminates or significantly reduces the application of tyres. They are easy to handle and environmentally friendly, and can be tidily stacked on a pallet when not in use.

Benefits of SILOSTOP Gravelbags

- Eliminate tyres for an easier, safer, more environmentally friendly weighting solution.
- Oblong shape ensures the maximum sealing effectiveness when laid along seams and edges.
- Robust woven netting material with a lifespan of at least five years.
- Quick and easy to move as silage is taken from the face.
- Pallet storage is simple and tidy.

SILOSTOP GRAVELBAGS

Product information

Product code	Nominal metres	Nominal feet	Packaging	Effective length filled	Approximate weight filled
V400.004	1.2 x 0.27	3.9 x 0.9	Packs of 50 Bundles of 500	1 metre	20 kg

SILOSTOP Gravelbags are supplied with the following items:

- Tie string
- Sealing flap
- Handle
- Rotation mark
- Fill-level line

How to use SILOSTOP Gravelbags

Fill with small diameter (6 to 10mm) smooth pea gravel. This allows for easy filling, water drainage, and long bag life. Use end to end on edges and seams, and in between, for an effective seal.

Please note: SILOSTOP adopts a continuous development programme which sometimes necessitates specification changes without notice. Please contact us for the latest version. Issue no: Gravelbags v1 International 2015
